

If LPFM expands and takes precedence over K-LOVE, which serves me in my community on 105.5 FM and 89.9 The effect on the local community and I as well will be devastating, I depend on its up-lifting and encouraging words to carry on my daily life, I recommend it to my friends and family and they as well have learned to depend on it to get through the stress of every day life! Please don't allow anything to take away this valuable service I have had the benefit of listening to everyday for the last 4 years at the minimum! Thank You,
Judy Wood
